

Legaltech Hub Premium

Legaltech Hub(LTH) is the premier insights and analysis company for legal technology, combined with a comprehensive directory of global legal technology products and services.

Legaltech Hub Premium is a subscription service with high-value content for lawyers, innovation, and legal operations professionals in law firms and legal departments, and for any others interested in innovation and technology in the law.

Written by experts in the fields of legal technology, operations, and innovation, Legaltech Hub Premium contains a large number of valuable resources to educate the market and increase transparency in legaltech procurement. Finally there is a single location where vendors can help educate lawyers and legal professionals about legal tech generally and their solutions specifically in order to shorten the sales cycle and boost their branding in an objective way.

Solution Guides

In Legaltech Hub Premium, a set of content called Solution Guides has been developed in relation to each category of technology on the site. Premium Categories are those for which this content has already been developed.

Solution Guides provide context and practical guidance on how to explore, procure, and implement technology solutions that fall within the Premium Categories.

For each Premium Category, the following Solution Guides are developed:

-  **1. The Landscape** (a longform report on the category)
-  **2. Evaluation Framework** (a set of questions to ask vendors)
-  **3. Requirements Template** (a downloadable spreadsheet of functional requirements)
-  **4. Business Case** (providing ROI arguments)
-  **5. Vendor Analyses** (RFPs with pre-filled vendor data for individual vendors)
-  **6. Competitive Analysis** (the main solutions in the category compared in detail)
-  **7. Pilot Guide** (how to prepare and run a pilot of this type of technology)

The content for each Premium Category has been developed by one or more experts (LTH Experts), who are also responsible for updating and maintaining the content. All LTH Experts have been hand-picked by LTH because of their deep expertise in relation to the Premium Category for which they are responsible.

Know-How

Legaltech Hub Premium also offers case studies, practical guidance, and thought leadership content on subject matters including:

- Adoption Resources
- Change Management and Communications
- Data Management and Strategy
- Digital Transformation
- Innovation Strategy
- Knowledge Management
- Process Improvement
- Tech Stacks

This content, which is classified on Legaltech Hub Premium as Know How, includes articles by many industry authors and experts. These articles include the following titles:

A Matter of Timing: Your Adoption Problem isn't Happening When You Think It Is, by Nicola Shaver

Adoption Best Practices: The Experts Speak, by LTH

How to Establish Knowledge Management Processes, by Jack Shepherd

Successful Innovation Models, by Dennis Kennedy

How to Manage Your Documents without a Document Management System, by LTH

How to Develop a Legal Ops Metrics Program, by Tom Stephenson

Legaltech resources for Lawyers

Most lawyers are aware that technology is changing the practice of law. How that is happening and what it means for their career remain questions for many lawyers. What is Artificial Intelligence (AI)? How will AI impact my practice? What are the use cases for AI in law? What are my competitors doing? What is the meaning of an algorithm and how do I explain the tools that we use to our clients? Legaltech Hub Premium covers these and many more topics.

Sample resources include:

A Simple Guide to Legal AI, by Uwais Iqbal

The Low-Code Primer, by Sente Advisors

A Simple Guide to Legal Automation, by Sente Advisors

An Introduction to Data APIs, by Mark Torchiana

Use Cases for Data APIs, by Nicola Shaver

How to Evaluate Your Own Practice to Identify Automation Opportunities, by TJ Wilkinson

LTH is led by:

Nicola (Nikki) Shaver

CEO

Nicola Shaver, adjunct professor at Cardozo school of law, formerly Managing Director of Innovation and knowledge at Paul Hastings, advisor to law firm innovation teams and various legaltech companies.

Jeroen Plink

COO

Jeroen Plink, board member at Casetext, formerly CEO of Clifford Chance Applied Solutions, CEO of Practical Law US, and board member and advisor to a large number of legaltech companies including Kira, Compliance.ai and many others.

Licensing

Law firms, in-house departments, vendors and individuals can now sign up for a subscription. Pricing for law firms, in-house departments and vendors is based on law firm or legal department size. 2023 pricing is discounted for promotional purposes, to the benefit of our early adopters.
